

FOR IMMEDIATE RELEASE

Quayside Isle - A Dining Destination and A Visual Feast

SINGAPORE, 29 SEPTEMBER 2015 – In recent years, there has been a surge in the number of dining destinations offering more than just delectable dishes, but also unique dining experiences.

For instance, the Côte d'Azur, or French Riviera, is home to many cities including its largest known as Nice. With several marinas along its coast, the Côte d'Azur has become a popular yachting and cruising destination for locals and tourists alike. Currently, it houses over 3,000 restaurants that cater to overwhelming numbers of customers each day, looking for an opportunity to dine by the Mediterranean Sea.

In a city closer to home, The Rocks at Sydney, presents a cool and relaxed harbourside quarter as an urban locality for wine, dining and weekend markets. Overlooking the Sydney Opera House within the city's centre, diners from around the world make it a point to visit The Rocks for its proximity to and view of the city's famous landmark.

Evidently, it takes more than just good food to make a great dining experience these days. In a saturated industry where new restaurants and cafes appear around the corner on a daily basis, discerning customers are now beginning to look for the whole package - nice ambience, quality food and affordable prices. This is especially so in Singapore, where food plays a big part in the local culture. It is no longer something out of the ordinary to see locals travelling to the other side of the island in search of a good meal.

Quayside Isle, located across the waters at Sentosa Cove, is an example of a food and beverage establishment which attempts to create a unique experience for Singaporeans and tourists alike. As the country's only marina-front dining destination with 16 restaurants, visitors are enthralled by a panoramic view of luxurious boats the moment they step into Quayside Isle.

An International Palette

According to International Enterprise Singapore¹, interests in global exotic cuisines remain high amongst Singaporeans. Quayside Isle boasts cuisines from Spain, Italy, Greece, Belgium and many other countries from around the world. Contrary to popular opinions, it is also inexpensive to dine at Quayside Isle with an average meal ranging anywhere from S\$20 - S\$40, perfect for food lovers who crave for a unique dining experience without having to burn a hole in their pockets.

A Visual Feast

Recently, there has been a newly coined term for food photography known as 'Food Porn'. Defined as a glamorised spectacular visual presentation of cooking or eating, Food Porn appears to be a popular term used amongst the younger generation these days. At times, it may even seem as though a photo taken of the food one is about to consume matters more than the taste itself. With quality accreditation and natural lighting by day at the alfresco areas of Quayside Isle's restaurants, diners can be rest assured that food served will not only be a visual feast, but also tastes as good as it looks.
